Interesting Convention Proceedings.

The Herald's City of Mexico correspondent details the recent success of the Imperialists in Chibnahna, Sonora, and other States. It is claimed that Pasqueiro, the Republican Governor of Sonora, after being driven ont of Hermoselllo, the Capitol, was pursued, lost all his war material, and had his force completely dispersed. While in Chibnahna, it is said, the Imperialists marched across the State, routing every detachment of Republicans which they met.

occupied the city of Chimanua, on the 15th of August.

On his late visits to the Interior towns Maximilian was received, it is stated, with much enthusiasm by the inhabitants; being welcomed in addresses by the clergy and working-classes. Decrees among others have been issued by the Emperor's Government, appropriating 300,060 toward building a street railroad, receiving Mexico open to immigration from all countries, and establishing military colonies along the cutter route between the capital and Vera Cutz. The people of no other State have cherished a stronger or deeper line was indeed the cradle of the rebellion. Her To the Editor of the World:

I have read with great interest the remarks of the Louisville Journal and the World concerning the long imprisonment of Mr. A. H. Stephens. I happen to be able to bear testimony to the efforts made by him in the autumn of 1860 to prevent a disruption of the Union. After reading the very able and courageous speech which he had made to discusde the Legislature of Georgia from calling a Convention of the State, I wrote to lidm from Boston, where I then resided, expressing my empathy in his efforts, and my desire to do every thing in my power to assist him. His answer I now publish, being unwilling longer to keep private a letter which does him so much tion for thirty years; in Charleston the secession programme was arranged in 1860, and from the batteries in Charleston harbor, in 1861. the first gun was fired that lit the flames of the recent civil war. But that mighty struggle, terminating in the overthrow of the rebellion, has conveyed an enduring lesson of experience and wirdom to the people of that State. It has overturned forever their long cherished views of State sovereignty, upon which they predicated nullification and secession, and now, is the history of the bloody strife, they recognize the complete vindication of the country's nati Lality. President Johnson evidently felt that would clearly teach this lesson; and hence his emphatic expressions of confidence in the future legalty of South Carolina. And the satisfactory manner in which the work of restoration has advanced in the State tally justifies the parting words of confidence with which he bade the S ath Carolina delegation "go home" to their people and tell them that he had faith in them and in their good intentions and promises, and that he would do all he could to aid them in the work of restoration. The State Convention which assembled at Columbia, several days ago, under the proclamation of Provisional Governor Perry, adopted the following preamble and resolutions as expressing the sense of that body in respect to the results of the war, from which we may gather the spirit in which the South Carolinians are entering upon the work of restoring their proper relations with the Prior. would clearly teach this lesson; and hence his the work of restoring their proper relations

The foregoing are vastly significant, coming, as they do, from South Carolina. They indi-cate not only the good sense which the people of that State are bringing to bear in the great ask of restoration, but also the thorougher revplution which the war has produced in the itical opinions of the most extreme men of the South. Before the war they held the State as above the national Government; but now they assert that "the Union is the first and paraereignty, absolute and indivisi- lices of the Peace and other officers contrary to ble, 'resides alone in the American people and the laws of the State. ALEXANDER II. STEPHENS -Numerous applications have recently been made to President Johnson by the personal and political friends of Hon. Alexander H. Stephens to secure his re-lease from confinement at Fort Warren. Within

tember we find the following letter from Hon.

George T. Curtis, accompanied by a letter from

been published before. We reproduce them a

of extreme peril, when the very thunders of the

recent bloody war were heard in the distance:

to keep private a litter which does nime of maca credit, although it painfully reminde me of the vain exertions made in the North and in the South to save the country from the disasters prepared for it by the extremists of both sections. Yours, respectfully.

GEO. T. CURTIS.

What sort of an adjustment can afterward be

made to restore union or effect reconciliation? I do not know. I am certain, however, that nothing short of what was indicated in my speech, to which you refer, can. Should the receding States be let alone, no force used scalarst them, perhaps an emicable understanding and settlement of the matters in controversy metalt be made at no distant day. But

What I say is intended for yourself only, and not for the public, in any sense of the word. When I tell you what I apprehend will be the course of the Georgia Convention, it is only to apprise you of the real state of things here.

There are a large number of our people who will estain my position, but I feel that the codes are against us. We will do all that we can, and should any decided demonstration be made in Massachusetts, or other Northern States, on the part of any leading Republicans to-night, on the wrongs of which our people so justly complain, it would greatly aid us in our patriotic endeavors to save the Constitution and the

endeavors to save the Constitution and the Union under it. This is my earnest desire. Theuking you again for your letter, and hoping to hear from you again as to the prospect in Massachusetts, I remain, yourstruly, ALEXANDER II STEPHENS GEORGE T. Curtis, Boston, Mass.

vertion on the 2d altimo.

The following is a summary of its provisions:
Representation is placed, as heretofore, upon
the joint bases of all taxes raised, whether ditect or indirect and on the number of white
prople in each election district. This important change, however, is made: that whereas
all lands in the State, except these in cities,
were assessed under the old system according
to a fixed uncomal and arbitrary estimate now were assessed under the old system according to a fixed, unequal, and arbitrary estimate, now each will be according to the actual vidue of the property. This is a reform which has long been needed, and is strictly founded on colonial rights. It will prove a great relief the Charlesten, which thus paid nearly one third of the hung of the the State. A Senator is assigned to each judicial district, except in the Judicial district of Charleston, which constitutes, under the present arrangement, two election districts. The city, composed of the late parishes of S. Phillips and St. Nicholas, forms one election district, with two Senators; and the former parishes of Christ Church, St. Johns, Berkely, St. James, Goose Creek, St. Thomas, St. Denia, Zante, and Colon constitute another election District, under the name of the Election Dislistrict, under the name of the Election Disrict of Berkeiv, and entitled to one Senator.

The House of Representatives remains the ame, with the proviso that no one election dis-The House of Representatives remains the same, with the proviso that no one election distinct shall be assigned more than twelve representatives. The quota of Charleston heretofore was twenty. In other respects the provisions on this rina roce vote had been substituted in the General Assembly for the suffrage by hallot. The office of Governor, which has, in a measure, been nominal in its character, is invested with great power and the term extended to four years. He is to be elected by the people, and, in case of an inequality of votes, he is then to be chosen by the General Assembly. The par doning power is committed to his exercise, hit with the safe-guard that he is to report to the Lexislature all cases of annesty which has been granted by him, with a full statement of his reacons therefor, in order to prevent hasty legislation. The veto power is vested in him, subject to be overruled by a majority of both branches of the General Assembly.

The Lieutenant Governor, also elected by the people, becomes, by virtue of his office, the President of the Senate, and succeeds to the chair of State in case of a vacancy.

The law is to be administered by uperior and inferior Courts, directed and cetabilished by the Legislature, the Judges of the superior Courts for four years, one of the latter to be located in each Judicial District, and to be especially chaiged with the trial of all civil cases where one or beth of the parties are presons of color, and of all criminal cases where the accused is a person of color. The freehold qualification for a seat in the Senate or House of Representatives la dispensed with. The qualitations to retificate are the same as before, with an excention made in favor of emigrants from Europe, who, in lite of two years previous citizens p, must have declared their intention to become a clizen of the United States, according the Constitution and laws of the same.
